MAKERS AND TECHNOLOGY FESTIVAL + HUNTER ELECTRIC VEHICLE SHOW

FREE
ADMISSION

The Makers and Technology Festival will showcase the Greater Hunter Region's* innovative manufacturing, engineering technology companies, constructors, researchers, start-ups, METS, Defence and Related Technologies & Aerospace Industry. Established industries will include mining equipment, defence, aerospace, electric vehicles and related technologies.

The festival has been organised by the Australian Industry Group (a peak National Industry Body) with financial support from NSW Department of Premier and Cabinet, University of Newcastle and The Varley Group

Inquiries by email to makersfestival@aigroup.com.au

- > Uncover the latest machinery and equipment with displays from local manufacturers.
- > The University of Newcastle is second only to the CSIRO in Australia, in the number of industry research projects funded by the Australian Government Entrepreneurs' Program.
- > See the latest prototypes in electric cars and the likes.
- > Discover the latest advanced manufacturing technologies including state-of-the-art 3D printing equipment.
- > Enjoy a range of informative talks on technology & education from world-class speakers.
- > Explore a range of interactive activities from STEM high schools including the latest advancements in robotics and virtual reality.
- > Engage in interactive demonstrations by the University of Newcastle and TAFE NSW.

Visit makersfestival.com.au for the extensive program and
Visit hunterevfestival.net for Electric Vehicle show information
